OUR BUSINESS STRATEGY

Being one of the premier firms in this field in Hong Kong, we understand that providing the highest level quality and reliable products and after sales services will increase customer satisfaction and to sustain our competitiveness in the market.

Thermco understands people is the key factor for our success, at Thermco we:

- Work with respect for others and encourage information exchange and sharing experience
- Stimulate creativity and motivation
- Provide continuous training to staff and technicians

PRODUCT & SERVICES

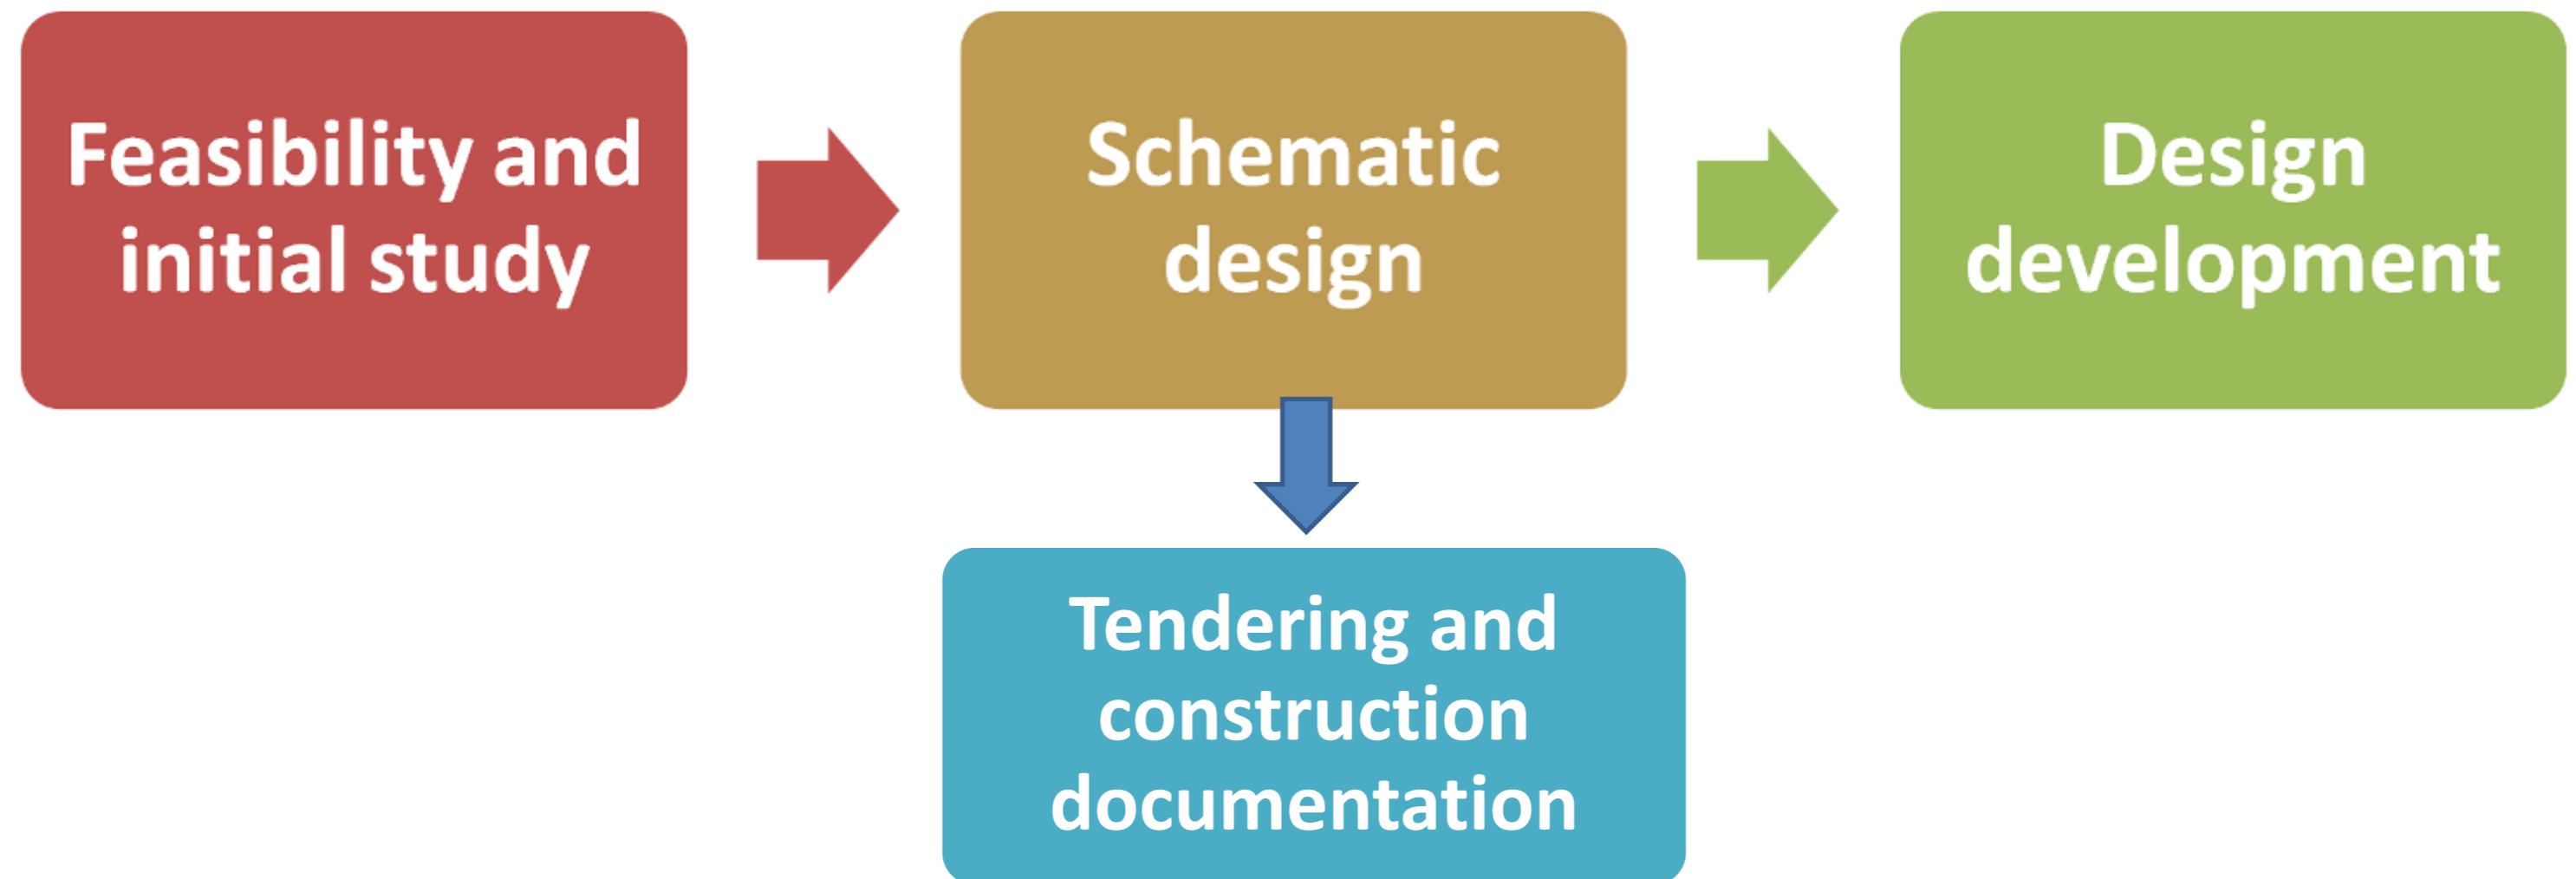

Our business operations focus on 3 main sectors:

- Provide consultancy services for Food & Beverage facilities and Hotel F&B facilities .
- Act as the contractor for building professional kitchen .
- Supply kitchen equipments for new project or replacement

CONSULTANCY SERVICES

Thermco has provided consultancy services to many F & B facilities , high-end restaurants and Hotel businesses in Hong Kong, Macau, Middle East and China.

THE CONSULTANCY SERVICES INCLUDE

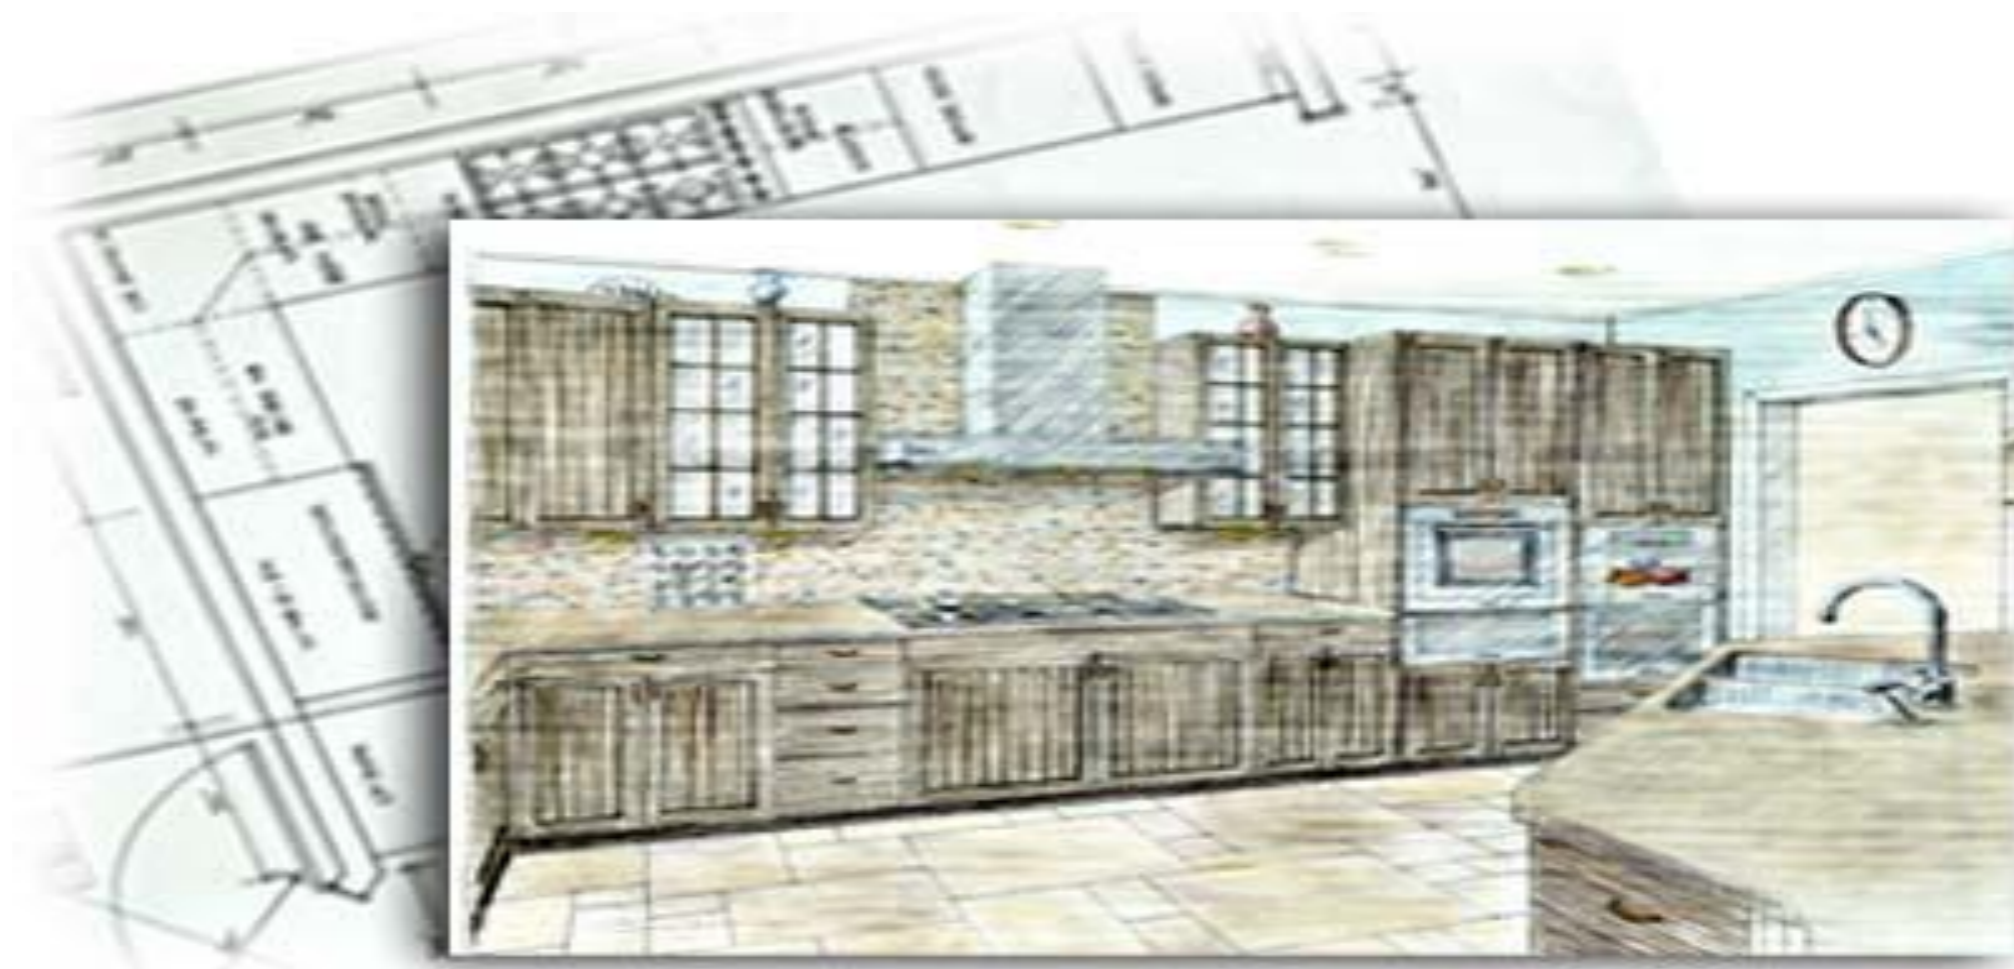

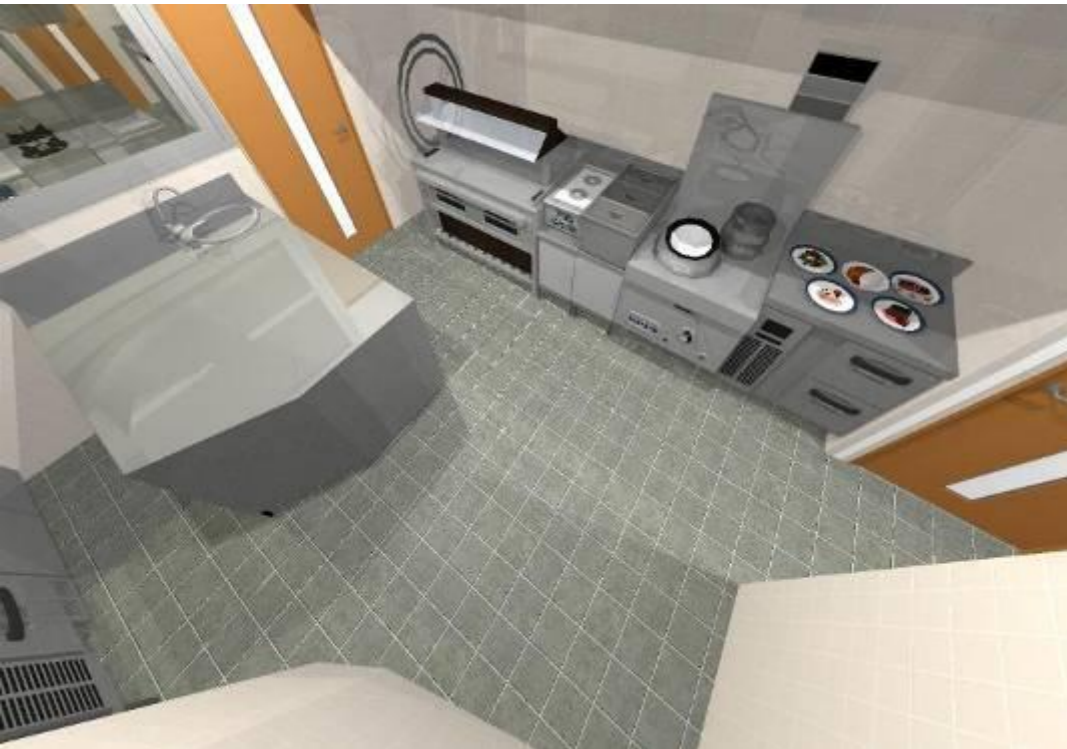

CONSULTANCY SERVICES

With a dedicated and professional project team, we have successfully acted as Consultant for many Client projects for which the following factors were recognized:

- Good communication with the Client to determine their requirements
- Carefully carry out the site study to meet the requirements
- Propose Initial alternative design of equipment layout
- Propose alternative budget estimation proposal for Client's choice

CONSULTANCY SERVICES

- Detailed layout for facilities and related areas
- Propose of detailed information of equipment
- Possible revision of the budget and timing schedule
- Ensure the proper co-ordination of all architecture, structural, mechanical, electrical etc

CONSULTANCY SERVICES

- Detailed drawing of project layout
- Elevations and shop drawing of all sections
- Detail of accurate E&M information to be provided to Client
- Development of 3D drawing and animation which reflects all the requirements of the Client

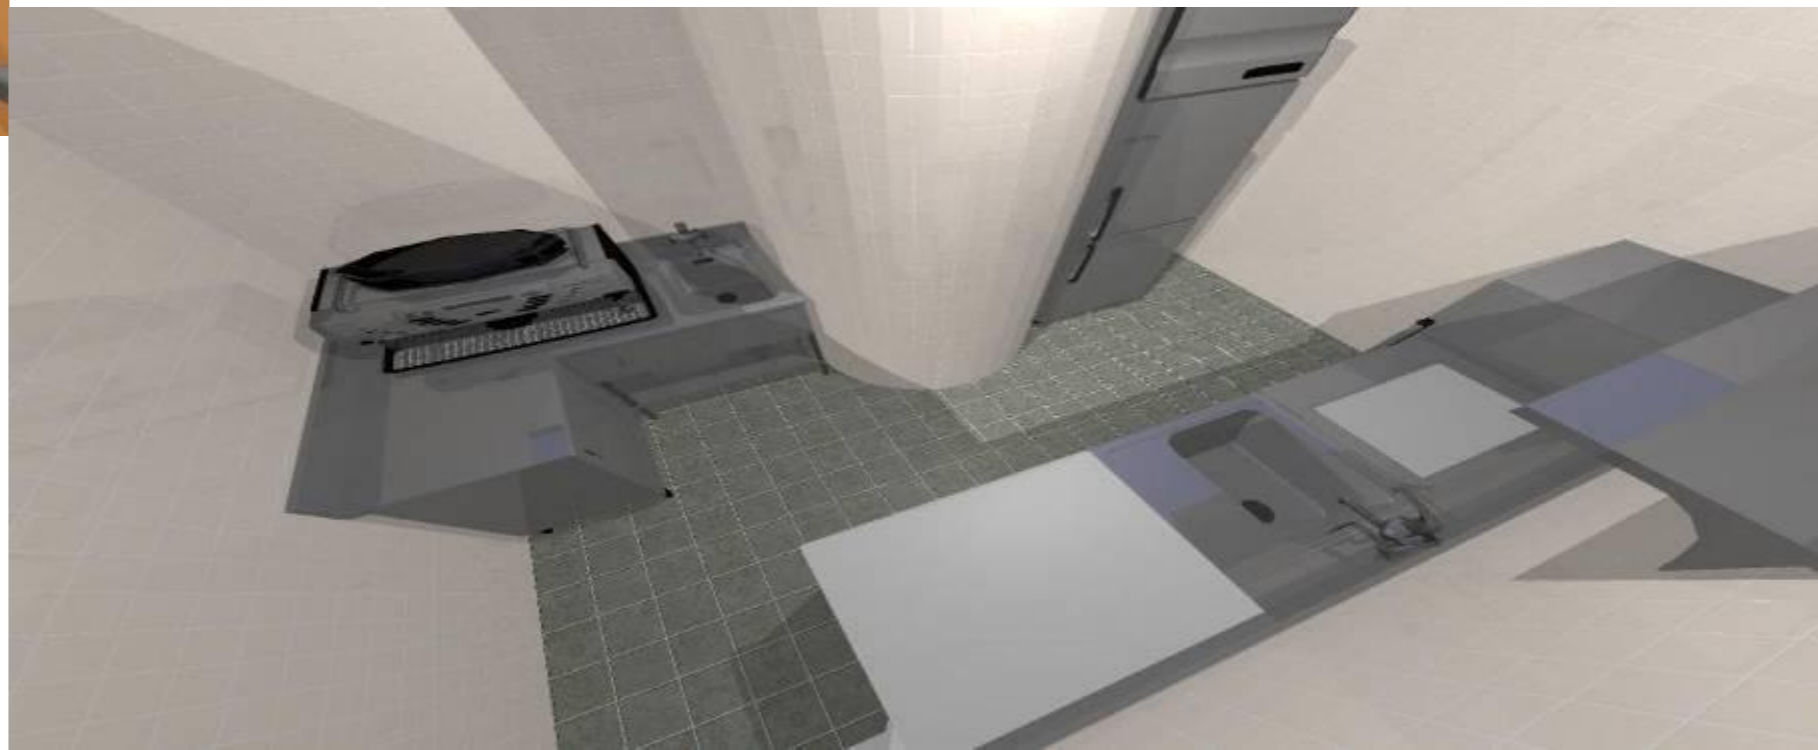

ADVANTAGES OF 3D ANIMATION

3D Animation has many advantages making it very easy for the Client to interpret the design and see the real image of the kitchen/ project.

Advantages:

- Shows a real image of the kitchen/bar
- Allows space and location measurement
- Permits a better idea of how the kitchen/bar equipment will look like
- Allows viewing the level of equipments
- Very handy for the Chef to use for kitchen training/ staff training

CONSULTANCY SERVICES

We offer excellent tender document preparation which helps our Client select a good contractor for their project.

- We will ensure the final design is practical tolerances for Contractor to achieve necessary standard.
- Assist the Client in Licensing applications
- Involve in tender analysis and evaluation
- Recommend prospective Contractor to the Client
